

**IsraelUAE Health
Collaborative®**

COLLABORATING
FOR A HEALTHIER
MIDDLE EAST

Who are we

Who Are We

In the backdrop of the historic Abraham Peace Accord, Shulkin Solutions LLC and Healthium LLC. have established

The IsraelUAE Health Collaborative[®] platform to support

and facilitate healthcare collaborations between non-governmental entities working to build relationships

between The **United Arab Emirates** and **Israeli** Healthcare

Technology sectors.

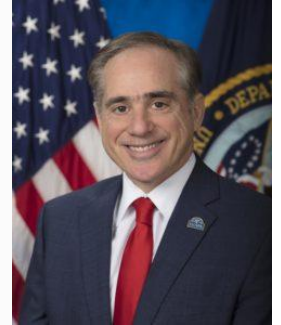

Leadership

Our Leadership

The Honorable David J. Shulkin M.D.
Ninth Secretary of the [US Department of Veterans Affairs](#).

Having been appointed by President Trump. Secretary Shulkin previously served as Under Secretary for Health, having been appointed by President Obama and confirmed twice unanimously by the [US Senate](#).

As Secretary, Dr. Shulkin represented the 21 million American veterans and was responsible for the nation's largest integrated health care system with over 1,200 sites of care, serving over 11 million patients.

Prior to coming to [VA](#), Secretary Shulkin served as chief executive of leading hospitals and health systems including [Beth Israel](#) in New York City and [Morristown Medical Center](#) in Northern New Jersey.

Leadership

Our Leadership

Mr. Kais Aldahshan
CHCIO

Mr. Aldahshan is CEO of [Healthium LLC](#), who had served as an Advisor to public health leaders in [the United States Government](#) and [around the world](#) on e-health strategy and operation. Kais is known for successfully leading large and complex EHR projects internationally including the [UAE](#).

Previously, Mr. Aldahshan served as Principal Director at [Booz Allen Hamilton](#) where he worked on technology-based projects for [the US Department of Veterans Affairs](#), [Department of Defense](#) and [the US Defense Intelligence Agency](#).

Value Proposition

Value Proposition

Our collaborative is a platform that builds sustainable partnerships between **non-governmental** entities in the **UAE** and **Israel** in the Healthcare Technology space.

With a broad range of affiliation with world-class **Israeli** technologies, we are able to rapidly create opportunity in the new ecosystem and facilitate a seamless commercial, technological and **-most importantly-** cultural integration.

Healthium.
Simplicity in practice

Shulkin Solutions

PROVIDING SOLUTIONS FOR IMPROVED HEALTH

What we do

- Establish an [Electronic Exchange](#) for companies to exchange ideas, services, and products.
- Establish a [Patient Exchange](#) program between the [UAE](#) and [Israel](#).
- Provide [support services](#) to help develop and grow market collaborations.
- Introduce the [IsraelUAE](#) Health Innovation [Awards](#).
- Develop and sponsor On-Line [Seminars](#) and [Webinars](#) for Issues that [Israeli](#) and UAE companies face.
- Provide [Resources](#) (Market, Regulatory, Legal, Technical) for companies seeking to [grow](#) market share.
- Assist with [fund](#) raising, technical [support](#), and strategic [advisory](#) service for market [expansion](#).

Endless Potential

Endless Potential

The [UAE](#) leads the Healthcare industry in the region with a government contribution of 68% of the country's total healthcare spending of USD 21 billion in 2019 with consistent 5.5% growth year-over-year.

The [Israeli](#) Health Tech sector is a global powerhouse and an essential partner to nations that are known to have the most advanced healthcare systems.

Featured Potential

Diagnostic Robotics offers customized digital health solutions for payors, providers, employers, and governments. Our cutting-edge artificial intelligence solutions can help your organization achieve the goals of the quadruple aim: reduced per capita spending, improved outcomes for populations, and better experiences for both patients and healthcare providers.

At EarlySense, we're working to improve patient safety with contact-free, continuous patient monitoring. Our range of innovative products are designed to give clinicians constant, contact-free access to a patient's level of motion, heart rate and respiratory rate (the single highest indicator of adverse events).

Featured Potential

Vocalis Health is an AI Health Tech company, analyzing voice to find unique vocal biomarkers for specific diseases including COVID-19. VocalisHealth® has developed a voice-enabled AI platform that creates proprietary vocal biomarkers for personalized healthcare screening, triage and continuous remote monitoring of health.

Novolog Group engages in healthcare services and specializes in three key sectors: the provision of medical services and technology-based support in the field of home care; the provision of medical information and technological tools in the digital arena to patients, physicians and medical institutions, and the provision of healthcare logistics services.

Featured Potential

Tyto Care is transforming primary care by putting health in the hands of consumers. We seamlessly connect people to clinicians to provide the best home examination and diagnosis solutions.

OraSure Technologies empowers the global community to improve health and wellness by providing access to accurate, essential information. Together with its wholly-owned subsidiaries, DNA Genotek, Diversigen, CoreBiome (now operating under the Diversigen brand) and Novosanis, OraSure provides its customers with end-to-end solutions that encompass tools, services and diagnostics.

Featured Potential

Outset is a pioneering medical technology company reimagining dialysis for patients and health care providers to address the growing Diabetes prevalence in the GCC.

Ibex Medical Analytics is the pioneer in AI-powered cancer diagnostics in pathology. We are a multidisciplinary team of entrepreneurs, data scientists, software engineers and medical experts, working together to realize our vision: Transforming cancer diagnostics with AI and improving patient care.

Aspirations

Pioneer a [Patient Exchange](#) program between reputable [Israeli](#) and [Emirati](#) Healthcare providers.

With a vast network of affiliations with [Israel](#), [UAE](#) and [US](#) – based contributors, Our collaborative aspires to be [the platform of choice](#) for key players in the new ecosystem.

We aspire to create a partnership between the [IsraelUAE Health Collaborative](#)® and [Reem Hospital](#) to evaluate, facilitate and implement a [Patient Exchange](#) Program and other initiatives and help achieve our common objective:

[A Healthier Middle East.](#)

Opportunities for Partnership

■ IsraelUAE Health Collaborative Seeks:

- ❖ Israeli and Emirati companies that seek to collaborate.
- ❖ Establish a patient exchange program between the UAE and Israel.
- ❖ Investment Firms Seeking to Invest in Israeli/Arab Markets.
- ❖ IsraelUAE Health Innovation Award. 
- ❖ Market Builders that can join Israel-UAE Collaborations.
- ❖ US companies looking to partner with Israeli - Emirati entities.
- ❖ Companies that bring new ideas to this Collaborative.

Thank you
